## ANNEX B – HERSCHEL MUSEUM OF ASTRONOMY PLANS

The Herschel Society is working closely with the Herschel Museum's plans to mark the anniversary. They have secured almost £61,000 for this from the Heritage Lottery Fund. They will work with partner organisations to create a year-long programme of activity, using the anniversary to better connect audiences with William's story, and encourage inspiration, learning and enjoyment. The museum team and wider partners will engage as wide and diverse an audience as possible with William's life and work, and those who influenced him, including Caroline. The programme includes:

- Free access to new planetarium shows in partnership with the University of Bath, Bath Astronomers and Percy Community Centre for disadvantaged families in Bath
- Free craft workshops, enabling families to visit the museum and develop creative responses of their choosing
- An exhibition with the Royal Astronomical Society and the Herschel family, that will bring collections to Bath for the first time and reveal the Herschel story through original artefacts
- Students will develop content and learn new curatorial skills with the support of our professional team
- School projects provide a creative programme of participation.
- A light box installation by UK artist Lynda Laird will encourage new, artistic audiences to the museum
- We will create a downloadable map based on research by volunteers from the Herschel Society that highlights the locations across the UK with Herschel connections
- New museum trails will make collections accessible for everyone. The public will participate, voting for the objects in the trail and taking ownership of their experience
- A commemorative stone in the garden will mark the anniversary and serve as a telescope platform, providing a legacy and marking the very spot where the planet Uranus was discovered
- Herschel Museum of Astronomy events will continue with the support of Bath Astronomers
- A new partnership with Slough Museum will enable them to co-design performances, exhibitions and participatory activity to engage the communities of Slough with the story of William Herschel.
