

ELIGIBILITY CRITERIA FOR THE 2024 CAROLINE HERSCHEL PRIZE LECTURESHIP

To be eligible applicants should be at least one-year post-PhD (from their viva date), and not yet established in, nor appointed to, nor on probation for, a permanent position, nor in a proleptic lectureship that is expected to lead to a permanent post. Your current position should be based in the UK or, in the case of a career break, you should be based in the UK. The Prize Lectureship will be awarded for achievements in Research and/or Instrument Building and/or Communication and/or Teaching, and is open to individuals with a wide variety of career backgrounds.

For the purposes of this award, astronomy is broadly defined to include astrophysics, cosmology, astroparticle physics, astrobiology, astrochemistry, solar physics, solar-terrestrial physics, planetary and meteoritic sciences.
